

PLAQUE IN HAWAII ABATING.

Surgeon General at Washington Receives Encouraging Report.

WASHINGTON, March 6.—The surgeon general of the marine hospital service has received a report from Surgeon D. A. Carmichael, at Honolulu, summing up the plague situation there and at Kalaupapa, on the island of Maui, and at Hilo, Hawaii.

At Honolulu he says that up to Feb. 29 the situation looked promising. On that day three new cases, all fatal, were reported. The infection in these cases is supposed to have been from Asiatic contacts.

Dr. Carmichael gives the results of observations of a trip made by Consul Hayward, President Wood of the board of health and himself to Kalaupapa, Maui and Hilo. At Kalaupapa the disease was quarantined, and had been moved to a detention camp, Kalaupapa destroyed by fire and the island turned. No cases had developed since Feb. 19 and the situation was well in hand.

Surgeon is shipped directly from Kalaupapa to San Francisco. All cargoes are disinfected in the open bay. Arrangements were made for the shipment of sugar direct from the plantations to the landing place and thence to the buyers, so as to avoid any danger of infection by the men engaged on the work.

At Hilo the doctor found only one case of the plague reported. The case resulted fatally.

The party returned to Honolulu Feb. 10. There have been so few cases lately, the doctor adds, that the anti-plague serum has not had a fair trial.
